PROFESSIONAL SUMMARY

Motivated Mechanical Engineering graduate with hands-on expertise in AutoCAD, SolidWorks 2022, and CATIA V5. Proficient in 2D drafting, 3D parametric modeling, surface modeling, sheet metal design, assembly design, and engineering drawing generation. Completed 200-hour Professional Diploma in Mechanical CAD with Excellent grade. Developed 7 diverse projects spanning assemblies, sheet metal, and surface modeling. Seeking a Mechanical Design or CAD Designer role to apply technical skills in engineering projects.

CORE SKILLS

CAD Software	AutoCAD Mechanical, SolidWorks 2022, CATIA V5	Engineering	GD&T, Engineering Drawings, BOM, Sheet Metal Design
Design Skills	2D Drafting, 3D Parametric Modeling, Surface Modeling, Assembly Design	Soft Skills	Quick Learner, Team Player, Problem Solving, Detail-Oriented

PROJECTS

- 1. Wheel Support Assembly — SolidWorks 2022**
[Assembly | SolidWorks](#)
 - Individual part modeling with accurate dimensions; Assembly using Mate constraints (Coincident, Concentric)
 - Engineering drawings with standard orthographic views (Front, Top, Left, Trimetric); BOM preparation

2026
- 2. Bench Vice Assembly — SolidWorks 2022**
[Assembly | SolidWorks](#)
 - Designed fixed jaw, sliding jaw, screw rod with motion constraints for clamping mechanism
 - Section view, exploded view generation; full component tree with 15+ parts including screws, guides, base plate
 - Material properties and mass property analysis applied

2026
- 3. Screw Jack Assembly — SolidWorks 2022**
[Assembly | SolidWorks](#)
 - Cup, screw, nut, body modeling with thread features; Lead screw with accurate pitch and profile
 - Full assembly with proper mates and constraints; 2D engineering drawings with all dimensions

2026
- 4. Marine Propeller / Impeller — SolidWorks 2022**
[Surface Modeling | SolidWorks](#)
 - Complex 4-blade propeller modeled using advanced surface modeling techniques (loft, sweep, blend surfaces)
 - PhotoView 360 rendering applied for professional visualization output

2026
- 5. Electronic Enclosure Box — SolidWorks 2022**
[Sheet Metal | SolidWorks](#)
 - Sheet metal enclosure with ventilation slots, circular cutouts, and mounting hole patterns using Sheet Metal workbench
 - Applied features: base flange, edge flange, cuts, hole wizard; Flat pattern generation ready for manufacturing

2026
- 6. Sheet Metal Bracket — SolidWorks 2022**
[Sheet Metal | SolidWorks](#)
 - L-shaped mounting bracket with multiple hole patterns using sheet metal bend features
 - Flat pattern generation for manufacturing; Material and thickness specifications applied

2026
- 7. Sheet Metal Channel Bracket — CATIA V5**
[Sheet Metal | CATIA V5](#)
 - U-channel bracket designed using CATIA V5 Sheet Metal workbench (Bending, Walls, Cutouts tools)
 - Sheet Metal Parameters defined with Tungsten material; demonstrates CATIA V5 proficiency alongside SolidWorks

2026

EDUCATION

B.Tech — Mechanical Engineering Dr. Paulraj Engineering College, JNTUK	CGPA: 6.9 / 10	2021 – 2025
Diploma — Mechanical Engineering Lenora College of Engineering	Score: 73.11%	2018 – 2020

Secondary Education (SSC) Z.P. School Gadirai, Anakapalli Board of Secondary Education, AP	Score: 8.2 GPA	2017
